

Mapleton Gun Club News

July 5 2023

Dan Dipietro landscaping will be working on upgrading our parking lot and pistol range starting July 14th and 15th possibly the following week. Please be aware that this could limit using the pistol or rifle ranges at this time and plan accordingly. Once this project is completed, we will have improved parking and ranges facilities.

If you can pickup any loose brass or steel casings before this project or after it would be greatly appreciated.

Reminder it is tick and mosquito season an application of repellent is probably a good idea at this time when using the range. Thank you for your membership and help in keeping the range open.
